To: The Scottsdale Corvette Club Members

Fr: David McClintic, President HQ98.com

I am delighted to offer members of the Scottsdale Corvette Club a great discount on two-way radios that will communicate with your current Motorola CLS1110 RadioS.

The radio that has been chosen with members of the Scottsdale Corvette Club is affordable yet powerful (4 times the power of the current radio) and extremely durable.

The radio is the ICOM Business Class IC-F4001, 16 Channel UHF radio. The manufacturer's retail price on this radio is \$209.98. Our regular price is \$169.98 and your price as a Member of the Scottsdale Corvette Club will be \$153.00 each.

I also understand that current members may have Motorola CLS1110 radios that they may wish to turn in for a possible credit toward their purchase of the new model. We are willing to provide up to \$50 credit, IF the radio is re-salable as a used radio. That means it will have to have at minimum the charging unit and be in good working condition. I might suggest however, that in combination with the new radio, the old one can be still be used on your trips with your car partner and also at home. (My wife and I often take a pair of radios to places like IKEA where we divide and conquer.) Each case will be handled individually. If you have any question, please call me at: 888-988-4798.

Instructions on ordering your new ICOM IC-F4001 radio.

- Find us online at: www.HQ98.com and put IC-F4001 in the search box or use the following link directly to the radio:
 - http://www.hq98.com/icom-business-ic-f4001-16-channel-uhf-radio/?page_context=category&faceted_search=0
- Select the number of radios you would like to purchase and choose "Custom Programming"
- In the shopping cart enter the Coupon Code: **SCC10** (this will give you a 10% discount on your entire purchase.)

You might also want to shop for headsets for safer driving! Check out Pryme Radio Headsets.

I look forward to working with you! Please feel free to call 888-988-4798 if you have any questions.
